# Solomon Emmanuel

Solomon is the manager and one of the pioneer staff of the Helpdesk team within the Information & Communication Technology (ICT) Services department.

The Helpdesk is perhaps the busiest unit in the entire organization because it supports the delivery of all the projects in some capacity. They ensure that every team member at eHA has all the digital tools that they need to deliver their results. The helpdesk also functions as a customer call center and provides support, information, and solutions to eHA staff and partners.

Solomon monitors the utilization of eHA's IT infrastructure across our offices and the Emergency Operations Centers (EOCs) that we support, and ensures that they are functioning optimally. In the four years that he has been with eHA, he has facilitated an increased uptime of all network devices across all our locations, ensuring that we and our partners are never without access to the internet and our work platforms.

In addition, he trains and supports new hires and teams across our country offices to effectively utilize our work applications/platforms such as Jira, Asana, Confluence.

## Staff Spotlight

*Solomon Emmanuel is an outstanding leader and team player with a positive personality. He works very hard, thinks strategically and leads his team well. He has contributed immensely to endeavors within the department and beyond. He has developed several SOPs for processes in the department, worked on several strategic initiatives including the file management system and he is a ranking member of so many committees and groups, to which he contributes actively.*

*- Abdulhamid Yahaya  
Senior Manager,  
ICT Services*

*Solomon Emmanuel is a good manager that encourages the growth of the unit and the team. He is hardworking and proactive, also his leadership style is unique.*
